

Product Fact Sheet

Rhino PlastiCurve™

Description

The Rhino PlastiCurve is made of an engineered plastic that is so durable it will withstand repeated vehicle impacts and snap back into position.

UV Stable

UV stabilized to hold up to years of outdoor exposure.

Temperature Stable

Unaffected by cold weather or extreme heat.

Lightweight

Each 66" Rhino PlastiCurve weighs only 2 lbs. This makes the Rhino PlastiCurve easy to handle and inexpensive to ship.

Durable

The combination of our engineered plastic and the curved design allow the Rhino PlastiCurve to bend over and snap back up if hit by a vehicle or animals.

Colors

Standard colors include orange, yellow and red. Custom colors are available with a minimum order. Call for details.

Lengths

Standard lengths are 62", 66", 72" and 78". Custom lengths are available with a minimum order. Call for details.

High Visibility Decal System

Our color fast decals are manufactured specifically for extended life in harsh outdoor environments. All our decals are tested by an independent testing laboratory to ensure maximum UV stability and fade resistance. All standard reflective recreation activity decals are available and we can create any custom decal you require.
